2. Query Walt on status of next NFIB -- APEX?

3. Turner memo on meeting with RMS

- DCI attempts to clarify points he raised at the luncheon
- Circulated yesterday by registry
- John undoubtedly will want to discuss this when he returns from vacation so for now I recommend adding it to the papers we have been accumulating for that meeting
- In the meantime, I will be talking to some of you individually to get some proposals put together for John to consider
